Cracking the Memory Code Since 1983

Fall 2020

Dear Colleagues and Friends,

The fall season tested many of us as we juggle work, family, and self-care in the midst of a global pandemic, a polarizing election, and systemic racial injustice.

Despite the challenges, I am heartened by the enduring spirit of our community. We have seen students supporting one another, faculty taking a stand against racial injustice, and creative problem-solving in finding ways to stay connected to one another.

I invite you to explore the topics below and please reach out with any questions.

- [We're Social!](#)

Stay healthy, safe, and engaged.

Sincerely,

Michael A. Yassa Ph.D.
Director, Center for the Neurobiology of Learning and Memory
