Dear Colleagues and Friends,

Each year, the Center for the Neurobiology of Learning and Memory celebrates Giving Day by remembering to give thanks to those who so generously support our work. We are inspired by your kindness and the ways it has supported critical research and the success of many of the young CNLM scholars.

Without you, we would not be able to offer prestigious awards to more than twelve of our trainees annually.

Without you, we would not be able to pursue our biggest, most life-altering research pursuits.

And, without you, we would not be able to train the next generation of brain explorers through our K-12 outreach programs.

We invite you to consider continuing your support tomorrow, April 28, in honor of UCI Giving Day.

Spring 2021 Virtual Awards Ceremony

Join the Center for the Neurobiology of Learning and Memory (CNLM) for the 2021 CNLM Awards Ceremony. The CNLM offers awards to exceptional postdoctoral researchers, graduate trainees, and undergraduate students. Awardees will be presented with a plaque and $1,000 stipend and will be invited to present their work.

9:00 a.m. - 2:30 p.m.

Memory: It's About Time Virtual Conference
Memories are the record of our experiences, but they also shape them. We now know that memory recall is a fundamentally constructive process, reassembling multiple views of past experience to interpret the present and imagine the future. The three symposia for this year’s Learning and Memory meeting will examine recent and ongoing research building this new, dynamic, multi-scale understanding of memory.
