

AMBASSADOR PROGRAM

WHO WE ARE

We are a community of neuroscientists from undergraduate students to faculty who strive to make neuroscience **accessible**, **inclusive**, and **diverse**.

WHAT WE DO

We aim to bridge neuroscience and society by engaging in neuroscience educational activities in partnership with our communities. **Our mission is to broaden participation in neuroscience, train the next generation of diverse neuroscientists, and enhance public awareness of neuroscience.**

We engage with hundreds of community members each year at a variety of events. Join us to participate in neuroscience engagement at free public lectures at the Irvine Barclay Theater, school field trips, community college visits, the Brain Bee, and more!

OUR EXCITING INITIATIVES

K-12 OUTREACH

Engage K-12 children in Orange County and around the country in neuroscience.

ADULT OUTREACH

Promote awareness for neuroscience and brain health in our adult communities.

THE BRAIN BEE

Participate in the UCI chapter of an international neuroscience competition for high schoolers.

Join to learn more about **Ambassador leadership**, **peer mentorship**, **Sci Comm initiatives**, and **more!**

BENEFITS OF BECOMING AN AMBASSADOR

Community

We are a tight knit community of dedicated and compassionate neuroscientists united by our shared commitment to community-centered engagement and betterment. We host weekly coffee and bagel socials and regular bonding events!

Skill Building

As an Ambassador you will gain valuable training and experience in program development, scicomm, teaching, community outreach, stakeholder engagement, and more. Ambassadors are also offered unique opportunities to engage with neuroscience faculty.

Incentives

Active Ambassadors will be invited to participate in special community building and professional development opportunities. Additionally, stay tuned for stipend opportunities during the summer!
